Pentegra Includes All Advisors In a New Platform

The team at White Plains, New York-based **Pentegra** has **launched** their new *ESG Retirement Solution*.

"We have had demand from advisors for something advisors can refer their clients to, and it's something for all investment advisors," **Pete Swisher**, SVP, director of national sales at Pentegra, told **401kWire**. "Because the rules have been clarified and loosened up in recent years, we see movement."

The new solution offers bundled 401(k) plan services with fiduciary outsourcing capabilities, and it is designed to offer plan sponsors a simpler plan administration through the outsourcing of both the fiduciary administrator and investment oversight roles.

"We are excited there is a program that makes it possible for employers who want to see their retirement plans and incorporate ESG principles," Swisher continues.

The new solutions shares similarities with that of the *Big Green Retirement Plan*, launched in early-March, of which Pentegra is one of the providers; however, the *ESG Retirement Solution* is for all investment advisors.

"It is very similar to *Big Green*, but *Big Green* was built in conjunction with Social(k), and this program is open to any retirement plan advisor," Swisher tells **401kWire**.
