

# Pentegra's Consulting Solution

## We Fix What Others Fear

We help sponsors identify plan challenges, understand issues and execute solutions.

As fiduciary, we're not afraid to dig a little deeper, make sure things are done right and fix things that others may have overlooked. It's how we do business. As a CEFEX-Certified TPA, we hold ourselves and the work we do to the highest standard. As part of our process, we regularly review plans and often identify issues with prior plan administration that need to be corrected for plans to remain compliant.
