INDEPENDENT AUDITORS' REPORT

Board of Directors and Plan Participants
Pentegra Defined Contribution Plan for Financial Institutions
White Plains, New York

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Pentegra Defined Contribution Plan for Financial Institutions (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at year end) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Board of Directors and Plan Participants
Pentegra Defined Contribution Plan for Financial Institutions

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

End of year	$	2,111,075

The accompanying notes are an integral part of this financial statement.

1. DESCRIPTION OF THE PLAN

The following description of the Pentegra Defined Contribution Plan for Financial Institutions (the "Plan") is provided for general information purposes only. Participants should refer to their respective Summary Plan Descriptions ("SPD") for more complete information.

General

The Plan is a multiple-employer, tax-exempt trusteed savings plan. The Board of Directors (the "Board") of the Plan controls and manages the operation and administration of the Plan. Reliance Trust Company ("RTC") serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participating employers may, at their option, elect the 401(k) feature of the Plan that permits participants to defer current federal income tax, and the income taxes of most states, on the amounts contributed to and earned on the 401(k) account. Employers may, at their option, elect the Roth feature which permits participants to contribute to the plan on an after-tax basis. If certain conditions are met, earnings on Roth accounts generally will not be subject to taxation. Employers may also, at their option, elect the after-tax savings feature, which permits participants to contribute to the plan on an after-tax basis. While the earnings on this account are taxable upon distribution, the basis in the account is tax-free upon distribution. These contributions are made in cash and are subject to certain Internal Revenue Code ("IRC") limitations. Certain participants who meet the eligibility requirements may contribute additional amounts (e.g., age 50 catch-up).

Contributions on behalf of each participant are invested in accordance with the participant's instructions, entirely in one fund or in any combination of funds in increments of 1%. If a participant fails to make an investment election, contributions by participants or on their behalf are invested in the Plan's Qualified Default Investment Option (State Street Global Advisors Target Retirement Fund Series).

The profit sharing feature offers employers the option of allowing participant-directed investments as described above or investing at the employer's discretion. Additional employer contributions may be made in accordance with the Plan at the employer's discretion, including, but not limited to, matching contributions.

Participants may also rollover balances from other qualified defined benefit or defined contribution plans or individual retirement accounts.

An employer may elect automatic 401(k) elective deferrals on behalf of a participant in accordance with the Automatic Contribution Arrangement, with or without annual escalation. The automatic contributions would cease if the participant affirmatively elects to make contributions in a different amount or percentage or not to have deferrals made on his or her behalf. Automatic 401(k) elective deferrals will be invested in a qualified default investment alternative until a participant affirmatively indicates how such amounts shall be invested.

Participant Accounts

Individual accounts are maintained for each plan participant. Participant accounts are credited with participant contributions, employer contributions, forfeitures, loan repayments and investment earnings and charged with withdrawals, administrative expenses, loan advances and investment losses. Allocations, if any, are based on participant account balances or compensation. Additions to the participant's account purchase units and are based on the unit values of the respective investment funds. Any distributions from the account result in a decrease in units. The difference between the value of a participant's account at the end of the previous day and the value at the end of the current day, net of all transactions occurring during the current day (contributions, withdrawals, etc.), is the amount of earnings (losses) credited to the participant's account. The total value of a participant's account is determined by multiplying the number of units in each investment fund by the unit value of such fund and aggregating the results. The benefit to which a participant is entitled, is their vested account balance. Employers select the vesting schedule that will apply to employer contributions made to the Plan.

Investments

The Plan did not have any nonparticipant-directed investments as of December 31, 2022 and 2021. In addition, investments totaling $1,492 and $1,461 as of December 31, 2022 and 2021, respectively, are held by the Plan for liquidity purposes, and primarily used to pay expenses incurred by the Plan. Generally, participants direct the investment of their contributions into various investment options offered by the Plan. Participants should refer to their SPD. The Plan offers a wide variety of investment options spanning the risk/return spectrum, including equity, fixed income, stable value, target date and asset allocation funds. Plan assets are generally invested in common/collective trust funds ("CCTs") under one menu (Option I), and in CCTs and mutual funds under another menu (Option II). The investments are managed by State Street Global Advisors ("SSgA"), American Beacon Advisors, Inc., BlackRock Advisors, LLC, Capital Research and Management Company, Dodge and Cox, Massachusetts Financial Services Company ("MFS"), Principal Global Investors Trust Company, T. Rowe Price Associates, Inc., RTC and MetLife. In addition to the investment options managed by the listed advisors, employers, at their option, may offer expanded investment flexibility through the Personal Choice Retirement

Account ("PCRA"). The PCRA is a self-directed brokerage feature that works in tandem with the other investment options, providing access to additional mutual funds and individual securities. It is administered through Charles Schwab and Company, Inc.

Vesting

Participants are vested immediately in their contributions plus earnings thereon. Participants should refer to their respective SPD to determine the vesting schedule for employer contributions.

Notes Receivable from Participants

Employers may also, at their option, make available a loan program to their employees. This program, depending on the option elected by the employer, allows a participant to borrow from their account balance subject to limitations imposed by federal law. The balance in the participant's account secures the loans. The rate of interest for the term of the loan is established as of the loan date and shall bear interest rates comparable to the rates of interest in effect at a major banking institution (the Barron's Prime Rate plus one percent). Loan repayments of principal and interest are credited to participants' accounts. A one-time setup fee and an annual maintenance fee is charged to participant accounts. Loan defaults are classified as withdrawals and treated as taxable distributions. Participants should refer to their respective SPD for more complete information. As of December 31, 2022, participant loans have maturities through 2046 at interest rates ranging from 4.25 percent to 10 percent.

Payment of Benefits

A participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account or a portion of their account, subject to limitations imposed by federal law or options elected by the participating employer. Participants should refer to their respective SPD for more information.

Participants are also eligible to make hardship withdrawals from their accounts in the event of certain financial hardships. In order to determine if a hardship exists, the Plan uses the facts and circumstances test as permitted by Internal Revenue Service ("IRS") regulations.

Transfers

Transfers into the Plan represent participant accounts related to new employers coming into the Plan and transfers out of the Plan represent monies related to participant accounts whose employers are leaving the Plan.

Forfeited Accounts

When participants terminate employment, the non-vested portion of the participant's account as defined by the Plan, represents a forfeiture. The Plan document permits the use of forfeitures to reduce future employer contributions, offset plan administrative expenses or be reallocated among eligible participants for the Plan year. However, if a participant is reemployed and fulfills certain requirements, as defined in the Plan document, the account will be reinstated. At December 31, 2022 and 2021, forfeitures totaled $1,095 and $1,066, respectively. During the year ended December 31, 2022, forfeitures of $865 were used to offset employer contributions or allocated to eligible participants and $48 were used to offset administrative fees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Cash

The Plan's cash is in noninterest-bearing checking accounts that are used to process client activity, outside vendor transactions and administrative expenses. The Plan maintains deposits with high quality institutions in amounts that are in excess of the Federal Deposit Insurance Corporation limits of $250; however, the Plan has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides various investment options to its participants. Investment securities in general are exposed to various risks, such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with a majority of the investment options, management believes it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances, the amounts reported in the statements of net assets available for benefits, and the related notes to the financial statements (Note 3).

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date.

Asset based fees charged to the Plan include fees for recordkeeping and administrative services, trustee and custodial services and investment management expenses, and are reflected as component of net investment loss on the Statement of Changes in Net Assets Available for Benefits.

Realized gains or losses on investment transactions are recorded as the difference between proceeds received and cost. Cost is generally determined on the average cost basis for CCTs and the identified cost method for the mutual funds. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Valuation

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A more detailed description of the individual types of securities and fair value measurement methods can be found in Note 3.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. In accordance with IRS regulations, if a repayment is missed, the loan is treated as a distribution at the end of the quarter following the quarter in which the repayment was missed.

Administrative Income

Administrative income includes asset-based fees, flat base fees, per participant fees and transactional fees that are charged to employers or participants and are used to pay for administrative expenses of the Plan.

Administrative Expenses

Total administrative expenses include administrative fees, professional fees, transactional fees and board of director expenses that are paid by the Plan or charged against the Plan's assets.

To the extent the amount of total administrative expense is greater or less than total collections, such amount is recorded as a deferred liability and is included in other liabilities in the Statements of Net Assets Available for Benefits. The net deferred liability at December 31, 2022 and 2021 was $1,282 and $1,335, respectively, which is adequately covered by a portion of the $1,492 and $1,461 as of December 31, 2022 and 2021, respectively, held by the Plan for liquidity purposes as discussed in the investments caption in Note 1 and available cash.

Fiduciary liability insurance premiums aggregating $258 and board of director fees aggregating $108 in 2022 were billed directly to and paid by participating employers and are not reflected in the Plan's financial statements.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3. FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques

Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2022 and December 31, 2021.

The following is a description of the valuation methodologies used for assets measured at fair value:

Self-Directed Brokerage Account - Valued at quoted market prices except for the fixed income investments that may be valued using pricing models maximizing the use of observable inputs for similar securities. The Self-Directed Brokerage Account consists common stocks, mutual funds and fixed income investments.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the

(Amounts in thousands)

Securities and Exchange Commission. The funds are required to publish their daily NAV and to transact at that price.

Cash Series U.S. Government Fund - The Cash Series U.S. Government Fund invests in U.S. government securities and in repurchase agreements collateralized by U.S. government securities. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (Purchases and Sales) may occur daily.

Common/Collective Trust Funds - Valued at NAV of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (Purchases and Sales) may occur daily.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2022 and 2021.

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	2022 Total
Self-directed brokerage account	$ 5,338	$ 193	$ -	$ 5,531
Common/collective trust funds	-	1,921,906	-	1,921,906
Mutual funds	99,594	-	-	99,594
Cash series, U.S government fund	-	49,958	-	49,958
Investments, at fair value	$ 104,932	$ 1,972,057	$ -	$ 2,076,989

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	2021 Total
Self-directed brokerage account	$ 7,240	$ 92	$ -	$ 7,332
Common/collective trust funds	-	2,369,157	-	2,369,157
Mutual funds	141,991	-	-	141,991
Cash series, U.S government fund	-	49,537	-	49,537
Investments, at fair value	$ 149,231	$ 2,418,786	$ -	$ 2,568,017

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2022 and 2021, there were no transfers between levels.

Securities Lending

There are no direct securities lending by the Plan; however certain investment funds permit securities lending. Should there be a default on loaned securities, the funds are generally reimbursed for the amount of the default. In certain market circumstances, there is the possibility that the funds may impose withdrawal restrictions. As of December 31, 2022 and 2021, there were no withdrawal restrictions. In addition, there were no losses allocated to participants as a result of the loss of collateral with respect to securities lending programs as of and for the years ended December 31, 2022 and 2021.

4. EXEMPT PARTIES-IN-INTEREST TRANSACTIONS

The Board is comprised of executive officers of participating employers in the Plan and as such are participants in the Plan. Pentegra Services Inc. ("PSI"), a participating employer in the Plan, entered into a five-year service agreement effective May 1, 2007 whereby PSI provides administrative services to the Plan. This agreement outlines the fees that PSI charges the Plan and as such, the Plan and PSI are related parties. The agreement has remained in effect pursuant to automatic one-year renewals. PSI and the Plan entered into a new five-year service agreement effective as of December 1, 2018. For the year ended December 31, 2022, the Plan incurred $10,147 in administrative expenses charged by PSI.

5. PLAN TERMINATION

The Board shall have the right to amend or terminate the Plan or trust agreement subject to the provisions set forth in ERISA, at any time in whole or in part, for any reason, and without the consent of any participating employer or participant, and each employer by its adoption of the Plan and trust agreement shall be deemed to have delegated this authority to the Board. No amendment, however, shall impair such rights of payment as the participant would have had, if such amendment had not been made, with respect to contributions made by them or on their behalf to the Plan. The Board of each participating employer reserves the right at any time, at its sole discretion, to terminate participation by that participating employer, subject to the provisions of ERISA.

6. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Plan by letter dated November 14, 2014 that the Plan and related trust are designed in accordance with the applicable regulations of the IRC. It is the view of the Plan administrator and the Plan's counsel that the Plan continues to be designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. LITIGATION

The Plan is periodically subject to various claims and legal proceedings covering matters that arise in the ordinary course of its administrative activities. The plan is also currently subject to excessive fee litigation. Management believes that the final resolution of these matters will not have a materially adverse effect on the net assets available for benefits or changes in net assets available for benefits of the Plan.

8. SUBSEQUENT EVENTS

The Plan evaluated for disclosure any subsequent events through September 18, 2023, the date the financial statements were available to be issued, and determined there were no material events that warrant disclosure.
